The Director
Institute of Fire Safety & Disaster Management
Vadodara

Dear Shri Shah,

It was a great pleasure to visit your Fire Training College on May 01, 2003 and witness the live demonstration of fire fighting methods with the help of most modern and sophisticated equipment.

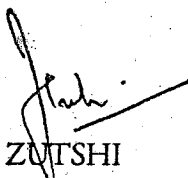

I was very happy to find that such a highly sophisticated Fire Training facility for imparting training is now operational in our country. Such a unique facility was long awaited since no such live fire training Institute capable of imparting training with advanced technology, exists in India. I am really impressed with the set up, different state-of-the-art equipment and modules that IFSDM possesses for imparting live fire training as simulation techniques. It is exquisitely equipped with most modern aids and infrastructure for imparting training to personnel – truly of world class. Your institute, the first of its kind in India, would prove to be highly beneficial for the personnel of Oil and Power Sectors, Civil Defence and other PSU organizations.

I wish all the success to this institution dedicated to fire safety. I am sure that your Institute will attract the candidates not only from India, but also from abroad. I strongly feel that industries should enrol their personnel in your Training Centre for few days training that will enrich their skills multifold in the area of overall industrial safety.

I congratulate you for setting up this dedicated facility, certainly a great gift and asset to our nation.

Thank you once again for inviting me to IFDSM.

Yours sincerely,

J. L. ZUTSHI

Shri N. P. Shah, Director
Institute of Fire Safety & Disaster Management
