Dear Mr. *N. P. Shah.*

Sub :- **Institute of Fire Safety and Disaster Management**

Thank you very much for your hospitality and kind assistance provided to make our visit on 11th and 12th April 2003 successful and meaningful.

The Institute of Fire Safety and Disaster Management which has come up in Baroda is the need of the Country in specific to the upstream and downstream sectors of Hydrocarbon Industry. The modules which depicts live fire in the real time operations were designed to the need of the oilmen working in the Industry. The Automatic Detection and Response System with both foam and DCP are really marvelous. These types of practical training aids are mandatory for imparting training to the Industry Fire Safety and Disaster Management Personnel. This facility is first of its kind in the Country to the best of my knowledge and I personally feel this will be better utilized by the Hydrocarbon industry in the days to come.

I wish you All the Best and I once again congratulate one and all who struggled a lot to make this facility functional.

Yours faithfully,

12.5.2003
(K.SATYANARAYANA)
