## CO<sub>2</sub> CHARGE INDICATOR FOR CO<sub>2</sub> FIRE EXTINGUISHER

IS 2190 - Indian Standard for maintenance of CO<sub>2</sub> Extinguishers have clearly stated under section 11.3(e) - maintenance clause - extinguishers should be inspected every quarter for weight Compliance.

An innovative solution to cater to the above mandatory requirement is deployment of "CO<sub>2</sub> CHARGE INDICATOR" as an accessory for CO<sub>2</sub> extinguisher. CO<sub>2</sub> CHARGE INDICATOR not only helps to avoid the tedious task of weighing every fire extinguisher but also provides a real time status of the fire extinguisher. It detects any decrease in the extinguisher's weight and gives a clear indication to any passer-by for immediate action.

### Salient Features:

- First-in-Class Mechanical CO<sub>2</sub> Extinguisher weight indicator
- Quick & Easy Installation. Installation time less than 10 mins
- Clear Indication, Easy to Monitor device
- Device for 2, 3 & 4.5 Kg CO<sub>2</sub> Extinguishers of various makes
- Non-Powered system for ease of maintenance, 100% reliable
- Wall Mounted unit with Standard Holes for ease of Installation
- Removal bar to avoid wall contact

### Packaging Information

Co <sub>2</sub> Charge Indicator
1 Unit: 22 X 9 X 9 cm
Packaging Type: Corrugated Box Packaging with product information
